BE PROUD OF YOUR CONTRIBUTIONS AND ACHIEVEMENTS IN THE CHEMICAL SUPPLY CHAIN INDUSTRY

The Awards at a Glance

After a short pause of the global industries due to unprecedented challenges, the GPCA Supply Chain Excellence Awards is now returning for its 4th edition this May with an entirely revamped structure with 4 exciting categories.

Held alongside the 14th GPCA Supply Chain Conference, this year's Awards will recognize and highlight the region's chemical supply chain and logistics operators and providers' commendable contributions to chemical supply chain optimization and their accomplishments that have added value to the businesses.

Objectives

- Recognize organizations and individuals who have contributed to chemical supply chain optimization in the GCC
- Recognize those public and private sector organizations who support the chemical supply chain operations in the GCC
- Reward the outstanding achievements in chemical supply chain activities that have added value to the businesses
- Promote benchmarking and friendly competition between companies involved in chemical supply chains or logistics activities

3rd GPCA Supply Chain Excellence Awardees

Who can participate

The 4th GPCA Supply Chain Excellence Awards are open to all regional chemical supply chain and logistics operators and providers who have developed and integrated innovative and sustainable solutions in their operations. Evaluation will be based on the performance of participating organizations during 2022.

Award categories

This award will recognize the technological innovations (including digital technologies) that improve the processes of an organization.

This award will acknowledge the LSPs who demonstrate excellence in their operations or through projects.

This award will be presented to a supply chain initiative in the GCC that has achieved a positive, quantifiable impact on society, local communities, and/or the environment.

This award is designed to recognize a female leader who has contributed positively and made an impact in the regional chemical supply chain sector.
